Office of the Superintendent

Child Development Programs Approval for Fundraising

ISSUE

Child Development Programs request Board approval for annual fundraising activities.

BACKGROUND/PREVIOUS BOARD ACTIVITY

Every year some of our preschools and ASES programs do fundraising activities to raise money for the special student events during the year. grant funds cannot be used for including end of year activities, special classroom items, holiday gifts for the children, celebrations and field days. The fundraisers provide from \$100.00 to \$1000.00 per fundraiser.

DISCUSSION

These fundraising events are planned and approved by the parents in the Parent Advisory monthly meetings of our preschools. The funds are raised for specific events and planned carefully around the funds they were able raise. Attached is the list of dates of the proposed fundraisers, what the program hopes to earn and how the money they raise will, will be used the vendors.

The ASES program fundraising are ideas that students would like to do and the Site Supervisor will work closely with the students and parents for these fundraisers.

FISCAL, STAFFING, AND FACILITIES

Site Supervisors are responsible for collecting and turning in all funds to our Child Development Office. They then request PO's as needed and within timelines needed. Child Development keeps accurate records on revenue and expenditures for each program's fundraising funds.

SUPERINTENDENT'S RECOMMENDATION

The County Superintendent recommends approval.

Report prepared by: Cindy Adams
