Identifying and Creating Child Centered Environments

This workshop provides an in-depth exploration of Lisa's approach to working with children. Via interactive lecture, true-to-life examples, anecdotes and her signature "learning and laughing" style, this workshop presents what it really means to be a hands-on, play-based, child-centered program.

We will also explore positive communication among co-workers, and establishing a positive atmosphere in your classroom.

Moderated lunch-time break out sessions will explore the CLASS tool, and discuss practical ways to address the specific assessment dimensions in your classroom.
